Description					
<p>This MVD binds the exchange requirements defined in the generic MVD (also called Exchange Requirements Model (ERM)) for Design to Spatial Program Validation – to the IFC 2x3 information model schema.</p> <p>This binding is intended to be consistent with Coordination View for IFC 2x3, developed and published by the IAI's Implementer Support Group (ISG). Beyond that, this model view is focused on all of the following:</p> <ul style="list-style-type: none">• Space information for both occupants and property management• Occupant information• Spatial Zones <p>There are no known limitations in this binding, relative to the generic view definition.</p>					
This document uses the official IAI View Definition Format version 1.0.11.
