Description				
<p>This document describes the high level principles applied in mapping v1.0 of the generic view definition for “Architectural Design to Circulation/Security Analysis” to the IFC 2x3 schema.</p> <p>This view is based on the Coordination View for IFC 2x3, developed and published by the IAI's Implementer Support Group (ISG). This view adds the following to that model View:</p> <ul style="list-style-type: none"> • 1 PropertySet to all space objects • 1-3 owner and industry classifications to all space objects • Space Occupants • Spatial Zones <p>There are no known limitations in this binding, relative to the generic view definition.</p>				
This document uses the official IAI View Definition Format version 1.0.11.
